Facial Rituals

Lift Massage 60' - 120€

A signature manual lifting treatment that works on muscles, fascia and microcirculation to redefine facial contours and give the face a firmer, more rested appearance. Deep yet harmonious techniques stimulate oxygenation and drainage, release tension and visibly improve skin quality.

Ideal for: tired-looking features, less defined contours, jaw and cheekbone tension.

Result: a more open, sculpted and radiant appearance.

Buccal Lifting Massage 60' - 150€

An advanced manual lifting treatment designed to soften the signs of ageing and reshape the face by targeting the facial and chewing muscles, which are often responsible for tension, lines and asymmetries.

The treatment unfolds in three stages:

1. lymphatic drainage to reduce puffiness and promote lightness;
2. muscle release to relax and restore balance;
3. buccal technique (intraoral, performed with gloves), working

simultaneously from inside and outside the cheekbones and perioral area through kneading, stretching and vibration techniques.

Result: softened lines, more lifted-looking cheekbones, a relaxed jaw and visibly reshaped facial contours.

Pull Up 60' - 120€

A plumping manual lifting facial designed for faces that appear depleted, marked or lacking firmness. It combines high-intensity lifting techniques with the synergistic action of cupping and Gua Sha to stimulate tone, microcirculation and firmness while enhancing the effectiveness of cosmetic actives, from botanicals to high-tech molecules.

Ideal for: loss of tone, pronounced wrinkles and less defined contours.

Result: fuller, firmer-looking skin with softened lines.
